We Shall Remain, the PBS mini-series, airs on WXXI April 13, 20, 27, May 4 and May 11, 2009 at 9 p.m. At the heart of the project is a five-part television series that shows how Native peoples valiantly resisted expulsion from their lands and fought the extinction of their culture -- from the Wampanoags of New England in the 1600s who used their alliance with the English to weaken rival tribes, to the bold new leaders of the 1970s who harnessed the momentum of the civil rights movement to forge a pan-Indian identity. *We Shall Remain* represents an unprecedented collaboration between Native and non-Native filmmakers.

Educator Resources

The *We Shall Remain* Web site will launch an extensive [Teacher's Guide](#) for social studies educators. The guide will incorporate video segments from the five documentaries into social studies resources, offering both viewing and comprehension aids and classroom activities. This resource will inspire and support teachers to integrate Native history and issues into their curricula and encourage them to present Native history as an integral part of American history. Visit <http://www.pbs.org/wgbh/amex/weshallremain/>

AM-1370 Highlights

Yellow Fluff, Rocket Lizards & Other Curious Encounters

Saturday April 4 at 3:00 p.m. An exacting mistress is science. After long months, years, decades of meticulous work, you think you've taken a step forward only to find yourself two steps back. But the promise of an answer is seductive. In this episode of Radio Lab, scientists talk about their passionate and sometimes fraught relationships with science. Theoretical physicist and author Alan Lightman takes us into the consuming world of pursuit and inquiry, and geneticist Jerry Coyne describes the sense of wonder he felt when faced with his own personal parasite. We go on location to the Gakkel Ridge with an Arctic research expedition in search of three-eyed tube worms, only to find ourselves holding nothing but yellow fluff.

Intelligence Squared U.S.: "Blame Washington More than Wall Street for the Financial Crisis" Saturday, April 11 at 3:00 p.m.

America Abroad: "Terror, Tribes and the Taliban" Saturday, April 18 at 3:00 p.m. The mountains and caves of the tribal regions of Afghanistan and Pakistan are the stomping ground of terrorists — where plots are hatched that threaten America's security. "Terror, Tribes and the Taliban" explores the deteriorating conditions on the ground there, and the inability of Kabul and Islamabad to tame the badlands along their border.

America Abroad: "The Responsibility to Protect" Saturday, April 25 at 3:00 p.m. The Holocaust, Rwanda, the Balkans and now Darfur. After each atrocity, the world says never again, and yet here it is ... again. Now the international community has a new idea: Responsibility to Protect (R2P). This idea states that each country is obligated to protect its citizens, and if a country can't, the international community must. Co-hosts Ray Suarez and Deborah Amos explore two situations in Democratic Republic of Congo and Kenya to see what R2P looks like on the ground.

1370 Connection: April 15th will feature an interview with PLANET FORWARD managing editor and host Frank Sesno, an Emmy-award winning CNN veteran, on Wednesday, April 15 at noon. See feature to the right for more details.
