In 2019, vaping became a crisis in the United States, as thousands experienced severe lung injuries and dozens died after vaping black market products.
- 2,200 people have been sickened and 47 have died from using black market vaping products (as of November 20, 2019)
But there's also a slower and more insidious crisis, as marketers target teens with flavored nicotine vaping cartridges, hooking a new generation on this by-product of tobacco.
- e-cigarette use has skyrocketed among teens, with one in four high school seniors nationwide saying they vaped in the last month.
Most young people are unaware of the short and long-term health impacts of vaping!

In an hour-long special, KRCB-FM Northern California Public Media talks with high school administrators, health professionals and students to investigate the vaping epidemic.

ROADTRIP NATION: THE NEXT MISSION follows three recent veterans - Sam Shockley, Helen Chandler and Bernard Edwards - as they journey cross-country to seek out fellow service members who have successfully transitioned into the workforce, and to obtain the insights they need to thrive in the next chapter of their own lives.

**2 Sides Project airs 3/25 at 1 a.m.** - [https://www.pbs.org/video/the-2-sides-project-nсуid4/](https://www.pbs.org/video/the-2-sides-project-nсуid4/)

- THE 2 SIDES PROJECT follows the unforgettable journey of six U.S. sons and daughters as they discover a country and a people with whom they share a common history. Over 11 days in December 2015, American and Vietnamese sons and daughters who had all lost fathers on opposite sides of the war held the first-ever formal meetings. The film captures the entire story, not just the transformative two sides encounters, but the profoundly moving experiences these Americans had while visiting the sites where their fathers died, and the powerful encounters they had with the country itself.

The film focuses on the aftermath of the Vietnam War, and provides a unique complement to the Ken Burns series on the war.
